## WORK EXPERIENCE

---

### **Boss Boleh**

**Nov. 2022 – Present**

*Senior Software Engineer (Team Lead)*

*Kuala Lumpur, Malaysia*

- Took on the role of a team lead/project manager within two months of joining to lead a team of 5.
- Collaborated with CTO and COO to optimize management and team objectives.
- Mentored and coached developers to improve their technical proficiency and communication skills, resulting in increased team productivity and morale.
- Collaborated with management and HR to participate in the recruitment and onboarding of new engineers, assessing candidates' ability.
- Spearheaded a successful Git strategy change, evaluating the needs of the team and implementing a new approach that improved collaboration, version control, and code deployment processes.
- Tasked with integrating new external APIs to enhance system functionality

### **Accenture**

**Jan 2022 – Nov 2022**

*Senior Software Engineer*

*Kuala Lumpur, Malaysia*

- Spearheaded the successful development of 3 product offerings, generating significant revenue and increasing market share for a leading telecommunications company.
- Directed a team of 3 developers, providing technical guidance and mentorship in communication skills, resulting in consistent delivery of high-quality projects on time and within budget.
- Conducted thorough code reviews, identifying and resolving critical issues to ensure the production of scalable and efficient software solutions.
- Led SIT, UAT, and production deployments, streamlining the process to minimize downtime and optimize system performance.

### **Strateg Oil & Gas**

**Feb 2020 – January 2022**

*Software Developer*

*Petaling Jaya, Malaysia*

- Designed and implemented system-wide push notification.
- Spearheaded the research and development of an IoT integration project for a petrol retail solution that operated in 7 countries leveraging technologies such as MQTT and AWS IoT Core

### **Etctech**

**April 2019 – Feb 2020**

*PHP Developer*

*Kuala Lumpur, Malaysia*

- Led multiple web application development life cycles, right from the design stage to delivery and post-launch support, ensuring that the projects were completed on time, within budget, and to the client's satisfaction.
- Collaborated closely with project managers and clients from multiple projects to understand their requirements, provide technical guidance, and ensure successful project delivery.
